Designed to make 5G adoption more accessible for businesses, the T-Mobile Partner Plus program's inclusion of Digi's advanced 5G routers gives customers an affordable, high-performance solution for

their wireless networking needs. This collaboration underscores both Digi and T-Mobile's commitment to breaking down barriers to 5G adoption and enhancing the digital transformation journey for businesses across the nation.

As part of the Partner Plus program for Business Internet, T-Mobile provides a subsidy credit of up to \$700¹ on certified Digi EX50 5G, TX40 5G and IX40 5G cellular routers, which are all integrated with [Digi Remote Manager](#)[®], delivering advanced management and monitoring. They are specifically designed to meet the diverse needs of businesses by providing robust, reliable, and secure 5G connectivity. Each router is tailored for different environments and use cases, ensuring that businesses can find the right solution for their specific requirements.

"At Digi, we are committed to delivering cutting-edge solutions that empower businesses to stay connected and competitive in today's digital landscape," said Tony Puopolo, President and General Manager of Digi Managed Solutions at Digi International. "Joining the T-Mobile Partner Plus program allows us to provide our industry-leading 5G routers at an even more cost-effective price point, minimizing adoption barriers and making it easier for businesses to make the transition — deploying secure and reliable 5G connectivity."
