

Digi International Launches Digi Connect EZ TS Serial Device Servers, Enabling Secure Transition to Modern IP Networks

05/19/26

MINNEAPOLIS--(BUSINESS WIRE)--May 19, 2026-- [Digi International](#) (NASDAQ: DGII), a leading global provider of IoT connectivity products and secure connectivity solutions, today announced [Digi Connect EZ 4 TS](#) and [Digi Connect EZ 8 TS](#), next-generation serial device servers designed to help organizations modernize legacy serial infrastructure with enhanced security and centralized management — without requiring enclosure or wiring changes.

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20260519106165/en/>

Digi International Launches Digi Connect EZ TS Serial Device Servers, Enabling Secure Transition to Modern IP Networks

The EZ TS family builds on the current Digi Connect EZ platform and provides an efficient transition path for existing ConnectPort TS and PortServer TS deployments, while introducing new capabilities for today's IT and OT

requirements.

Addressing the Serial Connectivity Gap

Serial connectivity remains essential across industrial automation, robotics, retail POS, kiosks and embedded systems. However, many deployments lack the security and remote access capabilities required in modern environments. Digi Connect EZ TS enables organizations to securely connect and manage legacy serial devices over IP — without replacing existing equipment.

"Digi Connect EZ TS delivers a secure and practical way to modernize serial connectivity while preserving existing infrastructure," said Jon Borscheid, Senior Director of Product Management at Digi International.

Key Features

- Efficient transition upgrade for Digi ConnectPort TS and PortServer TS environments
- 4- and 8-port models with software-selectable RS-232/422/485
- Digi TrustFence security with encryption, authentication and VPN support
- Centralized management via [Digi Remote Manager](#) or [On-Prem Manager](#)
- Slim, panel-friendly design for easy cabinet integration
- Fast setup with [Digi Navigator](#) and Python support for edge automation
- 1-year Digi LifeCycle Assurance (24/7 technical support and centralized management)

What It Enables

- Secure modernization of legacy serial infrastructure
- Remote monitoring, troubleshooting and firmware updates
- Compliance with enterprise security standards (TLS, FIPS, VPN, RADIUS, TACACS+)
- Excellent for industrial, energy, manufacturing and enterprise environments

Flexible Management

SOC 2 Type validated **Digi Remote Manager** provides secure cloud-based deployment and monitoring with 99.9%+ uptime and broad compliance support. **Digi On-Prem Manager** offers the same capabilities for air-gapped environments.

Availability

Digi Connect EZ 4 TS (EZ04-TS00-GLB) and **Digi Connect EZ 8 TS** (EZ08-TS00-GLB) are available for order now with included LifeCycle Assurance. Learn more at www.digi.com/connect-ez-ts.

About Digi International

Digi International (NASDAQ: DGII) is a global technology leader empowering enterprises to build, connect, and manage the critical systems that drive their businesses. Through an integrated portfolio of managed services, intelligent software, secure connectivity, and resilient edge solutions, Digi helps enterprises monitor, update, and control assets in real time, strengthen compliance, streamline workflows, and keep distributed operations running without interruption. Since 1985, Digi has enabled organizations worldwide to modernize operations and confidently connect millions of devices. Learn more at www.digi.com.
